

Case Manager Job Opportunity

Job description:

Ag Worker Health & Services, founded in 1972, is a non-profit federally qualified health center (FQHC) dedicated to providing services to agricultural workers and their families. We are seeking a part-time Case Manager to join our integrated health care team in Powell, WY. In this position, you will be the bridge between clinical services and community resources, helping patients navigate barriers to care such as housing insecurity, food insecurity, and transportation.

Mission Statement: To improve the health status of agricultural workers and their families and others living in rural poverty.

Duties: working closely with patient's treatment team:

- Patient advocacy & navigation
- Case management & care planning
- Care coordination
- Outreach & engagement
- Documenting in patient's chart in electronic health record
- Resource referral

Qualifications:

- at least 2 years of recent case management experience working with marginalized patient population; or, combination of education (bachelor's degree in social work, human services or related field) and experience
- Bilingual in English and Spanish preferred

Visit our website at agworker.org to find out why Case Managers choose to work at Ag Worker Health & Services.

Benefits:

- 401(k) matching
- Paid time off

Pay: \$17.30 - \$20.00 per hour
